SUMMARY

Product designer, 13 years, turning complex regulated workflows — banking and logistics — into products that are **simple to use and simple to build on**. I take ambiguous, high-stakes problems end to end: research, interaction design, and the design systems and tooling that let teams scale — including **three Figma plugins I've published to the community**.

2h → 60s

weeks → days

NPS 6.2 → 7.8

8 designers mentored

3 Figma plugins

SELECTED WORK Postbox · SwiftSort · Card management — case studies at ykshetty.design

EXPERIENCE

Tata Consultancy Services · Lead Product Designer · Aug 2015 – Present — a global consulting firm; deployed as an embedded design consultant into enterprise client projects (banking, logistics), adopting each client's title and ways of working.

Posten Bring — Design-System Architect & UX Consultant

via TCS · Oslo, Norway · Feb 2025 – Present

- Own end-to-end design for first- and last-mile driver operations (pickup & delivery), coordinating with the designers on adjacent processes — hub sorting, shop collection — where workflows hand off.
- **Initiated Posten's first shared Android (Kotlin) design system:** defined the design tokens, partnered with engineering on a reference "model app," and am driving a phased adoption POC across product teams.
- Led and shipped **SwiftSort**, a scan-triggered sorting system that moved gate decisions from memory to the moment of scan — **~40% faster sorting, onboarding weeks → days**; live in production.
- Designing native **Android + iOS** apps for Nordic Cargo (external business drivers, BYOD) and the Distribution app (Posten drivers on Zebra TC57) after the driver org split into two lines.

ABN AMRO / Neufelize OBC — Design & Content Expert

via TCS · Amsterdam, Netherlands · Mar 2018 – Dec 2024

- Owned end-to-end UX of self-service card management for a private bank — cut client wait from **2 hours to under 60 seconds** and moved **~85%** of card requests to self-service.
- Redesigned **Postbox**, the private-banking document vault, search-first across iOS, Android and web — internet-banking **NPS 6.2 → 7.8**.
- **Mentored 8 designers** — weekly critiques, quality standards, raising team output.
- Ensured **WCAG AA** compliance across digital touchpoints through manual and automated testing.
- Won the ABN AMRO-TCS "Blaze" ideation competition for a design-automation concept.

JPMorgan Chase — UX / UI Designer

via TCS · Bangalore, India · Oct 2017 – Feb 2018

- Redesigned a SaaS testing tool, simplifying complex data environments for internal users — **~25% faster** task completion (estimated).

Johnson & Johnson — UX Designer

via TCS · Bangalore, India · Apr 2016 – Jun 2017

- Offshore design support for J&J's innovation lab — prototyped new concepts for the MYACUVUE app, including scheduling and rewards features.

Qualcomm — UX Designer

via TCS · Bangalore, India · Sep 2015 – Mar 2016

- Tailored the ServiceNow interface to Qualcomm's brand across product pages.

HCLTech — Visual Designer / Data Visualizer

HCL corporate marketing, then design consultant for Microsoft & USAA · Feb 2012 – Aug 2015

- Built data visualizations for USAA financial-health reports — **30% increase** in engagement.
- Set up and trained a design team in Mexico, scaling the agency’s global delivery capacity.

SIDE PROJECTS – FIGMA PLUGINS (PUBLISHED TO THE FIGMA COMMUNITY)

Focal AI ↗ — predicts where attention lands on a design in ~1 second (AI attention heatmap), so hierarchy gets fixed before ship.

Token Map ↗ — maps hardcoded values and legacy tokens to a target library by weighted similarity; token migrations in minutes, not weeks.

Intent ↗ — heals detached components using layout rhythm and perceptual colour distance, fixing design-system debt where naming can’t.

SKILLS

Product Design — Interaction Design · UX Strategy · Information Architecture · Native iOS & Android · Responsive Web · Accessibility (WCAG AA)

Product Thinking — Discovery · Problem Framing · Prioritization · Workflow Optimization

Leadership — Design Mentorship · Cross-functional Leadership · Stakeholder Management

EDUCATION & CERTIFICATIONS

Bachelor of Visual Arts (BVA), Applied Arts
College of Fine Arts, Bangalore · 2007–2011

AI for Designers
Interaction Design Foundation (IxDF)

User-Centered Analysis (Advanced)
Tata Consultancy Services

Design Systems — Design Tokens · Component Architecture (Atomic) · Governance & Adoption · Documentation

Research — Usability Testing · User Interviews · Journey Mapping · Heuristic Evaluation · Data-Driven Design

Tools & AI — Figma (advanced) · FigJam · Miro · Illustrator · After Effects · Jira · Figma Make · Claude · ChatGPT

HONORS & AWARDS

- Winner — ABN AMRO–TCS “Blaze” Ideation Competition
- Beyond Performance Awards — TCS

LANGUAGES

English (professional) · Dutch (elementary) · Hindi · Kannada · Tamil · Telugu

WORK AUTHORIZATION

EU citizen (Netherlands) — full rights to work across the EU/EEA. No visa sponsorship required.
