COMPLEX WORKFLOWS · DESIGN SYSTEMS · ENTERPRISE UX

Product designer, 13 years, turning complex regulated workflows — banking and logistics — into products that are simple to use and simple to build on. I take ambiguous, high-stakes problems end to end: research, interaction design, and the design systems and tooling that let teams scale — including three Figma plugins I've published to the community.

2h → 60s Card resolution time	weeks → days Sorter Onboarding	NPS 6.2 → 7.8 ABN AMRO Postbox	8 Designers Mentored	3 Published Figma Plugins
---	--	--	--------------------------------	-------------------------------------

SELECTED WORK: SwiftSort · Postbox · Card management — case studies at ykshetty.design

EXPERIENCE

Tata Consultancy Services · Lead Product Designer · Aug 2015 – Present — a global consulting firm; deployed as an embedded design consultant into enterprise client projects across banking, logistics, healthcare and telecom, adopting each client's title and ways of working. Mentored 8 TCS designers — design critiques and quality standards — who went on to their own client engagements.

Posten Bring — UX Consultant & Design-System Architect

via TCS · Oslo, Norway · Feb 2025 – Present

- Own end-to-end design for first- and last-mile driver operations (pickup & delivery), coordinating with the designers on adjacent processes — hub sorting, shop collection — where workflows hand off.
- Initiated Posten's first shared Android (Kotlin) design system: defined the design tokens, partnered with engineering on a reference 'model app,' and am driving a phased adoption POC across product teams.
- Led and shipped SwiftSort, a scan-triggered sorting system that moved gate decisions from memory to the moment of scan — **~40%** faster sorting, onboarding **weeks → days**; live in production.
- Designing native Android + iOS apps for Nordic Cargo (external business drivers, BYOD) and the Distribution app (Posten drivers on Zebra TC57) after the driver org split into two lines.

ABN AMRO — Design & Content Expert

via TCS · Amsterdam, Netherlands · Mar 2018 – Dec 2024

- Owned end-to-end design for Accounts & Payments and the Postbox team in ABN AMRO's Wealth International (private banking) division — serving Germany, Belgium and France, across iOS, Android and web.
- Within Accounts & Payments, designed self-service card management for Neufelize OBC (France) — cutting client wait from **2 hours to under 60 seconds** and moving **~85%** of card requests to self-service.
- Redesigned Postbox, the private-banking document vault, search-first — lifting internet-banking **NPS from 6.2 to 7.8**.
- Ensured **WCAG AA** accessibility across digital touchpoints; won the ABN AMRO–TCS "Blaze" ideation competition for a design-automation concept.

JPMorgan Chase — UX / UI Designer

via TCS · Bangalore, India · Oct 2017 – Feb 2018

- Redesigned a SaaS testing tool, simplifying complex data environments for internal users — **~25%** faster task completion (estimated).

Johnson & Johnson — UX Designer

via TCS · Bangalore, India · Apr 2016 – Jun 2017

- Offshore design support for J&J's innovation lab — prototyped new concepts for the MYACUVUE app, including scheduling and rewards features.

Qualcomm — UX Designer

via TCS · Bangalore, India · Sep 2015 – Mar 2016

- Tailored the ServiceNow interface to Qualcomm's brand across product pages.

EXPERIENCE (CONTINUED)

HCLTech — Visual Designer / Data Visualizer

HCL corporate marketing, then design consultant for Microsoft & USAA · Feb 2012 – Aug 2015

- Built data visualizations for USAA financial–health reports — 30% increase in engagement.
- Set up and trained a design team in Mexico, scaling the agency’s global delivery capacity.

FIGMA PLUGINS · PUBLISHED

[Token Map ↗](#)

Maps hardcoded values and legacy tokens to a target library — token migrations in minutes, not weeks.

[Focal AI ↗](#)

Predicts where attention lands on a design in ~1 second — an AI heatmap, so hierarchy gets fixed before ship.

[Intent ↗](#)

Heals detached components using layout rhythm and perceptual colour distance.

SKILLS

Product Design

Interaction Design · UX Strategy · Information Architecture · Native iOS & Android · Responsive Web · Accessibility (WCAG AA)

Product Thinking

Discovery · Problem Framing · Prioritization · Workflow Optimization

Design Systems

Design Tokens · Component Architecture (Atomic) · Governance & Adoption · Documentation

Leadership

Design Mentorship · Cross–functional Leadership · Stakeholder Management

Research

Usability Testing · User Interviews · Journey Mapping · Heuristic Evaluation · Data–Driven Design

Tools & AI

Figma (advanced) · FigJam · Miro · Illustrator · After Effects · Jira · Figma Make · Claude · ChatGPT

EDUCATION & CERTIFICATIONS

Bachelor of Visual Arts (BVA), Applied Arts

College of Fine Arts, Bangalore · 2007–2011

AI for Designers

Interaction Design Foundation (IxDF)

User–Centered Analysis (Advanced)

Tata Consultancy Services

HONORS & AWARDS

- Winner — ABN AMRO–TCS “Blaze” Ideation Competition
- Beyond Performance Awards — TCS
